## Project Title: Tadao Ando Website

I would like this site to have multiple pages, most likely sectioned by the categories below. Site navigation will most likely lie at the top, and the site will include a simple, modern palette mainly with black and white.

- Home Page
  - this will most likely be plainer page, with 1 or 2 images. Most likely less text and more of just an intro page.
- Life
- Career
- Buildings/Works
  - this will most likely constitute the bulk of the site.
